

CLAUDE DESIGN BRIEF

# Business Health Check Assessment

Complete product, UX, scoring, Firebase, and redesign specification for every public page, client view, admin view, and onboarding walkthrough.

Prepared for a full visual and UX redesign of the MarketAtomy BHC web app.

Product: MarketAtomy LLC · App: businesshealthassessment · Date: August 17, 2026

Constraint: Redesign UI/UX only. Preserve Firebase collections, field names, scoring math, and question IDs.

# 1. How to use this document

---

This brief is the source of truth for remaking the entire website. Rebuild every screen, empty state, modal, and flow. Do not invent a new scoring model. Do not rename Firestore collections or break existing documents.

**Primary instruction for Claude Design:** Produce a premium, brand-true MarketAtomy experience for two modes — Client View and Admin View — with a guided first-run walkthrough. Keep all current capabilities. Elevate visual design, information architecture, onboarding, and interaction quality. Use the logo colors below, not generic Tailwind gray/emerald.

1. Match MarketAtomy brand colors, logo, and tone.
2. Cover every page listed in Section 5.
3. Preserve Firebase document logic in Section 11.
4. Preserve scoring and category math in Section 10.
5. Add the onboarding / walkthrough specified in Section 8.
6. Do not require payment to use the product yet. \$297 is marketing copy only; there is no Stripe checkout in this app.

## 2. Product overview

---

MarketAtomy is a business-growth consulting firm. The Business Health Check (BHC) is a scored diagnostic that evaluates a company across 21 sections / ~20 KPIs, grouped into five interdependent systems. After the client answers section by section, the app computes category scores, health levels, a written report, recommended resources, and a growth roadmap.

### Mission

“Focus on the DREAM... Trust the PROCESS!” MarketAtomy prepares owners through cognitive awareness, focused education, and strategic collaboration.

### Promise of the assessment

If you don't know what you don't know, you can't know what to fix. The BHC shows gaps that cause high cost and failure: poor management, undercapitalization, and incorrect pricing.

**Positioning stats used on the landing page:** 400,000+ new businesses start annually; 70% fail within 24 months; 20 critical areas evaluated. Price shown: **\$297** (not collected in-app).

**Live app:** Firebase project `businesshealthassessment` , hosting default

`https://businesshealthassessment.web.app` . Stack: React 19, Vite, React Router, Tailwind 4, Firebase Auth + Firestore, Cloud Functions, Recharts, jsPDF / @react-pdf/renderer.

### 3. Brand, colors, type, and assets

The current UI is a generic dark Tailwind kit (gray-900 + emerald). That is wrong for MarketAtomy. Rebuild using the logo system.

#### Logo construction

- Circular yellow ring with a jagged rising “M” chart that breaks the circle as an upward arrow.
- Chart fill is a vertical gradient: yellow → orange → reddish magenta.
- Wordmark: “Market” in dark navy italic sans, “Atomy” in royal/medium blue. The A is an upward arrow with a yellow tip.
- Never recolor the logo mark. Place it on navy, black, or white. On dark backgrounds, give it a light plate or use the existing horizontal PNG.

#### Color tokens (required)

|                                                                                                                         |                                                                                                                          |                                                                                                                        |                                                                                                                       |                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <br><b>#0B1F4A</b><br>Navy / Market  | <br><b>#101B31</b><br>App navy        | <br><b>#2E6BB0</b><br>Royal / Atomy | <br><b>#2BB3C7</b><br>Cyan accent | <br><b>#F5C400</b><br>Brand yellow |
| <br><b>#F26522</b><br>Brand orange   | <br><b>#E23B6A</b><br>Magenta         | <br><b>#050B18</b><br>True black    | <br><b>#F7F4EC</b><br>Warm paper  | <br><b>#166534</b><br>Healthy      |
| <br><b>#854D0E</b><br>Needs tweaking | <br><b>#B42318</b><br>Needs attention |                                                                                                                        |                                                                                                                       |                                                                                                                         |

- **Primary CTA:** orange → yellow gradient, white text, bold. Used today for “Get Started / Start Assessment”.
- **Secondary CTA:** navy or royal outline on dark; white fill on light.

- **Health colors:** keep semantic meaning. High/Healthy = green, Medium/Needs Tweaking = gold/yellow, Low/Needs Attention = red. Do not use emerald as the brand color.
- **Surfaces:** dark navy shells for app chrome; warm off-white cards for reports, forms, and data tables (reports are currently white cards on dark — keep that contrast, refine it).
- **Type:** Inter is already the app font. Pair a confident italic/oblique display for headlines if needed, but stay professional. No playful startup fonts.
- **Voice:** direct, coach-like, slightly urgent, never cute. MarketAtomy speaks to owners who are overwhelmed. Use “working ON the business vs IN the business.”

## Assets to keep using

| File                                              | Use                                                           |
|---------------------------------------------------|---------------------------------------------------------------|
| src/assets/MarketAtomy-HOR-300x92.png             | Primary logo in nav, sidebar, emails, PDF reports, onboarding |
| src/assets/companyLogo.png                        | Alternate/full logo if needed                                 |
| src/assets/poweredBy.png                          | Login/signup footer lockup                                    |
| src/assets/google.png                             | Google sign-in button                                         |
| marketatomy.com resource PDFs / videos / Calendly | Recommended resources (do not invent fake URLs)               |

## 4. Roles and modes

| Role          | Who                                                                               | What they see                                                     |
|---------------|-----------------------------------------------------------------------------------|-------------------------------------------------------------------|
| tier1         | Default for every new signup                                                      | Client View: dashboard, assessment, reports, feedback, bug report |
| admin         | Staff; also email <code>dannaolivo@gmail.com</code> is hard-coded into admin mode | Admin Dashboard, Assessment Management, all user data             |
| tier2 / tier3 | Named in comments / admin dropdowns, not functionally gated                       | Treat as future paid tiers. Do not block features yet.            |

Danna's account has an **Admin / Client toggle** in the header so she can demo both modes. Keep this. Admins who are not Danna stay in admin unless you add a similar preview toggle.

There is **no paywall**. Signup creates `role: "tier1"` and routes to `/dashboard`. Do not add a blocking checkout unless explicitly designed as an optional later step.

## 5. Current information architecture

### Routes

| URL        | Screen                          | Notes                                                                   |
|------------|---------------------------------|-------------------------------------------------------------------------|
| /          | Marketing landing               | Hero, stats, 5 systems, why assess, about, CTA                          |
| /login     | Login (same LandingPage shell)  | Email/password + Google                                                 |
| /signup    | Signup (same LandingPage shell) | First, last, username, email, password, Google                          |
| /dashboard | Authenticated app shell         | All logged-in views are state tabs inside this route, not separate URLs |
| /home      | Unused Tailkit starter          | Do not redesign; remove or ignore                                       |

**IA recommendation for the redesign:** Give real URLs to major views ( /assessment , /report , /admin/users , etc.) so onboarding, emails, and deep links work. Keep Firebase auth gate on all app routes.

### Authenticated shell (sidebar)

Both modes share a left navy sidebar, top bar (“Welcome to the BHC (Client View | Admin View)”), user name, logout, Give Feedback, Report a Bug.

#### Client sidebar

- Dashboard
- Assessment
- Reports (opened from dashboard CTA today; should be a first-class nav item)
- Give Feedback
- Report a Bug
- Logout

#### Admin sidebar

- Admin Dashboard (users / analytics / content / monitoring tabs)
- Assessment Management (edit questions)
- Give Feedback / Report a Bug / Logout
- Admin/Client preview toggle for Danna

## 6. Public website pages to redesign

---

### 6.1 Landing page

Must keep the story, not the generic dark-kit look.

- Sticky nav: logo, Features, Assessment, About, Login, Get Started
- Hero: “Business Health Check Assessment”, 20 critical performance areas, \$297, Start Assessment, Sign In, privacy line (no spam)
- Visual: four sample health score cards (Foundational, Financial, Sales & Marketing, Product Viability)
- Stats: 400,000+ / 70% / 20
- The 5 Business Health Systems with area chips
- What you’ll receive: PDF report, category scores, health indicators, action items, resources, roadmap, progress tracking, recommendations
- Why take it + the line “If you don’t know what you don’t know...”
- About MarketAtomy + mission + link to marketatomy.com
- Final CTA repeating \$297
- Footer © MarketAtomy LLC

### 6.2 Login

- Email, password, show/hide, Sign in, Google popup, link to signup, forgot password exists as a component ( `ForgotPassword.jsx` ) but is not clearly routed — include it in the redesign
- On success: if no `users/{uid}` doc, create a basic one, then go to dashboard

### 6.3 Signup

- Required: first name, last name, username, email, password, confirm password
- Live username availability check against `usernames/{lowercase}` (this read is public on purpose)
- Google signup may omit username
- Creates Auth user, `users/{uid}` with `role: "tier1"` , and username doc
- Then dashboard. Welcome email is sent by Cloud Function

## 7. Client view — every screen and behavior

---

### 7.1 Client Dashboard

Home after login. Purpose: status, scores, next action.

- Intro: what the BHC is (21 KPIs / 5 systems)
- Completion badge: In Progress (n%) or Completed
- Last updated date from `users.overallHealth.lastCalculated`
- Continue Assessment → assessment view
- Five score cards with percentage, health badge, progress bar: Foundational Structure, Financial Strength, Sales & Marketing, Product Viability, Overall Health
- View Full Report / Print Full Report (PDF download)
- Detailed Insights copy that changes if incomplete vs complete vs all-healthy
- Next Steps list generated from scores
- Growth Roadmap: Assessment → Analysis → Strategy → Implementation → Growth (steps 1–3 light up based on completion / low scores)
- Recommended resources (title, description, type chip, optional URL)

### 7.2 Assessment (client)

This is the core product. Left: section list + progress bar. Right: one section at a time.

- Load sections from `BHC_Assessment` ordered by `order`
- Mark a section complete if a `sectionResults` doc exists for that user + `sectionName`
- Clicking a section loads prior answers if present (view mode) with an edit action
- Question types:
  - `multipleChoice` — radio; score = selected option.weight
  - `multipleSelect` — checkboxes; score = sum of selected weights (can be negative)
  - `text` — stored, weight 0
- Optional `beginningText` / `endingText` per section
- Must answer all visible questions to submit
- Submit writes/updates `sectionResults` and recomputes `users.computedScores` + `overallHealth`

- **Section 19 Production gate:** first question “Are you a manufacturing company?”. If No, skip remaining production questions, mark section N/A, reduce Product/Service `maxPossible` by that section’s max, then auto-advance to next section
- When every section is complete, show assessment feedback form once (not if already in `assessmentFeedback` )

### 7.3 Assessment feedback form (post-completion)

Fields: `overallRating`, `clarityRating`, `relevanceRating`, `length` (`just_right` / `too_short` / `too_long`), `recommendScore`, `mostValuableSections[]`, `confusingQuestions`, `missingTopics`. Store on `assessmentFeedback` .

### 7.4 Comprehensive report

- Executive summary with overall % and health badge
- One card per category: raw score vs max, %, health level, narrative from report content, resources
- Priority action items for low categories
- PDF export of the same report
- Empty state if no scores yet, with Start Assessment CTA

### 7.5 Resources

`Resources.jsx` exists. Promote it in nav. Show recommended resources by category/health, with real URLs (Calendly, PDFs, academy, videos).

### 7.6 Feedback modal and bug report modal

Available from every authenticated page.

- Feedback → `feedback` : `rating`, `feedback`, `suggestions`, `userId`, `userEmail`, `submittedAt`, `type`
- Bug report → `bugReports` : `title`, `description`, `steps`, `expected`, `actual`, `severity`, `status`: `open`

### 7.7 Emails the client receives (keep copy, redesign templates if touching email)

- Welcome on `users/{uid}` create → start assessment
- Reminders if incomplete: first after 2 days, then every 3 days, max 5
- Completion congratulations when all sections are done

## 8. Required new onboarding and guided walkthrough

---

There is currently no onboarding. Add it. Persist `users.onboarding` so it does not repeat.

### Client walkthrough (first login)

1. **Welcome:** “You’re about to diagnose 5 business systems.” Logo, 60-second why, estimated time (can complete in sessions).
2. **How scoring works:** honest answers, some questions have negative weights, health is Needs Attention / Needs Tweaking / Healthy — not a school grade.
3. **How to take it:** 21 sections, save per section, come back anytime, manufacturing skip on Production.
4. **What you get:** dashboard scores, full report, PDF, resources, optional coach debrief (Calendly).
5. **Profile check:** confirm name; optionally collect business name if Section 1 / user profile supports it.
6. **Start first section** CTA. Secondary: “Explore dashboard first.”

### In-product coaching (ongoing)

- Dashboard tooltip pointing at Continue Assessment until first section is done
- After 3 sections: “You’re building a baseline. Finish a category to unlock a richer score.”
- When a category first becomes scorable: brief explanation of that system
- On completion: confetti-free, premium “report ready” moment → report page → book debrief
- Checklist widget: Create account ✓ / Complete intake / Finish all sections / Read report / Book debrief / Download a resource

### Admin walkthrough (first admin login)

1. User Management: search, role, export, inspect answers
2. Analytics: how to read health distribution and drop-off
3. Content: editing report narratives and resources
4. Assessment Management: warning — changing option weights changes everyone’s future scores; never recycle question IDs
5. Monitoring: bugs and feedback queue

Each tour step should have Skip, Back, Next, and “Don’t show again.” Store `users.onboarding.clientCompleted` and `users.onboarding.adminCompleted` .

## 9. Admin view — every screen and behavior

---

### 9.1 Admin Dashboard tabs

Gate: `users.role === "admin"` (Danna also forced into admin UI). Non-admins redirect to client dashboard.

#### User Management

- Table of all `users`, sort by createdAt, name, email, role, assessment progress
- Filters: search (email/name/username), role (admin/tier1), completed vs incomplete, date range
- Change role dropdown (admin can set admin/tier1)
- User detail modal: profile, scores, health, section completion
- Answers modal: pick a section, see that user's stored answers/weights
- Export users CSV and per-user PDF snapshot

#### Analytics & Reports

Tabs: Overview, Section Stats, Question Analysis, Category Breakdown, Time Analytics, Engagement, Predictive Insights. Filters: date, category, section, role, completion. Charts: pie health distribution, bars, lines, radar. CSV/PDF export. Includes at-risk users, drop-off points, average completion time, activity by day/hour, lowest-scoring questions, most skipped.

#### Content Management

Edit `reportContent/main`: per category × health level (healthy / needsTweaking / unhealthy) — narrative message + resource list (title, description, type, url). Save to Firestore; fallback to code defaults.

#### System Monitoring

Bug reports (filter status/severity, mark resolved) and product feedback (filter rating). Detail modals.

### 9.2 Assessment Management

This is the CMS for the instrument itself. Load/save `BHC_Assessment/{id}`.

- Edit title, order, beginningText, endingText

- Edit question text, type (multipleChoice / multipleSelect / text), options (label + numeric weight, including negatives)
- Add/delete/reorder questions. IDs auto-rebuild as `q{order}{letter}` e.g. `q2a` , `q2b`
- Saving overwrites the section document. Warn that ID changes can orphan old `sectionResults.answers` keys

### 9.3 ReportsInsights component

A second analytics report UI exists in code. Fold it into Admin Analytics rather than leaving a hidden duplicate. Same data, cleaner information design.

## 10. Scoring and calculations (do not change the math)

### Per-question

Score contribution is the weight of the chosen option(s). Multiple select sums. Text is 0. Negative weights are valid (especially Personal Assessment and General).

### Per-section

`sectionScore` = sum of question contributions in that section. Stored on `sectionResults`.

### Category mapping (section numbers → category)

| Category key          | UI label                            | Sections                 | formLow | maxPossible | Low top | Med top |
|-----------------------|-------------------------------------|--------------------------|---------|-------------|---------|---------|
| foundationalStructure | Foundational Structure              | 2, 3, 5, 6, 7            | 7.75    | 135         | 44      | 90      |
| financialPosition     | Financial Strength / Position       | 4, 8, 11, 12, 16, 17, 18 | 13      | 169         | 33      | 120     |
| salesMarketing        | Sales & Marketing                   | 10, 12, 13, 14, 15       | 12      | 138         | 44      | 100     |
| productService        | Product Viability / Product-Service | 8, 9, 19                 | -1      | 64          | 25      | 56      |
| general               | Overall / General Health            | 20, 21                   | -18     | 29          | -10     | 20      |

Note: Section 12 counts in both Financial and Sales. Section 8 counts in both Financial and Product. This overlap is intentional.

### Category totals

For each category, `computedScores[category].sections[sectionNumber]` = `sectionScore`, then `total = sum(section scores)`. Section 1 (intake) is not scored into these five.

### Health levels (raw score, not percentage)

- $\text{raw} \leq \text{lowRangeTop} \rightarrow$  **low / Needs Attention** (report key: unhealthy)

- lowRangeTop+1 to medRangeTop → **medium / Needs Tweaking**
- above medRangeTop → **high / Healthy**

## Percentage display

`percentage = clamp(raw / maxPossible * 100, 0, 100)`, one decimal. If non-manufacturing, Product/Service may store a reduced `maxPossible` override.

## Overall health

Average of the five category percentages.  $\geq 70$  high,  $\geq 40$  medium, else low. Stored as `users.overallHealth` with `lastCalculated` timestamp.

## Action items

Priority list = categories with healthLevel low (plus a top-3 lowest helper). Each pulls narrative + top resources from report content.

## Report content mapping

low→unhealthy, medium→needsTweaking, high→healthy. Messages and resources are in `src/utils/reportContent.js` and optionally overridden by Firestore `reportContent/main`.

Claude Design may restyle score cards, gauges, and badges. It may not change thresholds, category membership, overlap, or weight math.

## Category narratives (keep this copy)

### Foundational Structure

**Healthy:** Congratulations! You have obviously put in the time and effort to ensure that you have built an infrastructure for growth... staying abreast of technology and economic changes.

**Needs Tweaking:** You're doing Great! Although your business appears to have a structured foundation that needs a little update... meeting with an assessment strategist will help identify issues.

**Needs Attention:** The foundational/organizational structure appears to have gaps... unclear roles, diminishing bottom line, trouble attracting or retaining customers. Strategists pinpoint gaps and build a sequencing plan.

## Financial Position

**Healthy:** Good handle on financial infrastructure; next stage may be new product, geographic expansion, merger, or equity investment.

**Needs Tweaking:** Fairly good handle, but cash flow is holding back growth. Time to work ON the business.

**Needs Attention:** Stressed, chasing cash, sluggish revenue, personal reserves tapped. Options exist regardless of credit. Need a financial strategy.

## Sales & Marketing

**Healthy:** Solid sales/marketing; stay current; customer journey, data-mining, predictive analysis.

**Needs Tweaking:** Brand and sales exist but cycle fails to grow advocates. Experience determines referral vs deterrent.

**Needs Attention:** Struggling to find, attract, convert, and grow customers. Message, audience, or trust may be wrong.

## Product / Service

**Healthy:** Finger on the pulse; customers will pay; stay ahead with SWOT and competitive analysis.

**Needs Tweaking:** Needed in market but sales not robust; usually multiple infrastructure gaps, not “just marketing.”

**Needs Attention:** Unclear fit; messaging or market may be wrong; problem may not be worth paying to solve. Research before more spend.

## General / Work-life

**Healthy:** Healthy work/life and outlook. Don't get trapped working only IN the business.

**Needs Tweaking:** Attempts at balance exist; watch external threats/opportunities so growth isn't interrupted.

**Needs Attention:** OPA — Overwhelm, Paralysis, Avoidance. Don't go alone; coach/mentor; Vision Clarification.

## 11. Firebase document logic (must keep)

Project ID: `businesshealthassessment` . Auth: email/password + Google popup. Firestore is the database. Cloud Functions use Admin SDK and bypass rules.

### Collection: users / {uid}

```
userId, firstName, lastName, username, email, verified, signupMethod,
role: "tier1" | "admin",
createdAt, lastLoggedOn, lastLoggedOff,
computedScores: {
  foundationalStructure: { sections: { "2": n, ... }, total, maxPossible?,
percentage?, healthLevel? },
  financialPosition, salesMarketing, productService, general
},
overallHealth: { percentage, healthLevel, healthLabel, categoryCount,
lastCalculated },
emailPreferences: {
  welcomeEmailSent, welcomeEmailSentAt, reminderCount, lastReminderSentAt,
completionEmailSent, unsubscribed
}
// Redesign may ADD: onboarding { clientCompleted, adminCompleted, step },
// businessName, lastActiveView – do not rename existing fields.
```

### Collection: usernames / {lowercaseUsername}

`{ userId, username, email, createdAt }` . Public get for availability. Create on signup.

### Collection: BHC\_Assessment / {sectionId}

```
title, order, beginningText, endingText,
questions: [{
  id: "q2a",
  text: "...",
  type: "multipleChoice" | "multipleSelect" | "text",
  options: [{ label: "Yes", weight: 2 }, ...]
}]
```

Client reads all sections. Only admin writes. Order is the section number used in scoring maps.

## Collection: sectionResults / {autoId}

```
userId, userEmail, submittedAt, sectionName, sectionScore, notApplicable?,
answers: {
  q2a: { answer: "Yes", weight: 2 },          // multipleChoice
  q2c: [{ answer: "Cash", weight: 1 }, ...]    // multipleSelect
}
```

One logical result per user per section (code updates the first matching doc). Queries:

where `userId == uid`, and where `userId == uid && sectionName == title`. Admin lists all, ordered by `submittedAt`.

## Other collections

| Collection                   | Write                                   | Shape                                                                       |
|------------------------------|-----------------------------------------|-----------------------------------------------------------------------------|
| assessmentFeedback           | client create                           | userId, userEmail, createdAt, assessmentCompleted, responses{}              |
| feedback                     | client create                           | userId, userEmail, rating, feedback, suggestions, submittedAt, type         |
| bugReports                   | client create; admin update status      | title, description, steps, expected, actual, severity, status open/resolved |
| reportContent/main           | admin                                   | category → healthy/needsTweaking/unhealthy → {label, message, resources[]}  |
| mail                         | functions / email extension only        | queued emails                                                               |
| carts, orders, pendingOrders | legacy academy/commerce on same project | Do not delete rules; this BHC app does not UI them                          |

## Security rules (already deployed)

- Signed-in users read BHC\_Assessment and their own user doc / sectionResults / assessmentFeedback
- Users cannot change their own `role` or wallet/stripe fields
- Admins (role admin or Danna's email) can list users, all results, bugs, feedback, and edit assessment/content
- Username get is public; list is admin

## Cloud Functions to keep working

- `onUserCreated` — `users/{uid}` create → welcome email
- `checkIncompleteAssessments` — daily 09:00 reminders
- `onAssessmentComplete` — `sectionResults` create → if all sections done, completion email

Progress helper treats a section complete when `sectionResults.sectionName` matches a `BHC_Assessment.title`. Renaming titles without migrating results will break completion. Prefer stable titles.

## 12. End-to-end flows to redesign

---

### New client

1. Landing → Get Started → Signup (or Google) → user + username docs → welcome email → onboarding tour → dashboard empty state → start Section 2 (or 1 if present) → save section → scores update → continue until complete → feedback form → report + PDF → resource / Calendly

### Returning client

1. Login → dashboard with partial progress → continue incomplete section → edit a completed section (recompute scores) → logout

### Admin

1. Login as admin → admin home → inspect a user → view answers → export CSV → tweak a report resource → edit a question weight (with warning) → resolve a bug

### Demo (Danna)

1. Toggle Admin vs Client without logging out. Client toggle should show the real client dashboard, not a mock.

## 13. Feature matrix

| Feature                | Client    | Admin     | Redesign notes                                            |
|------------------------|-----------|-----------|-----------------------------------------------------------|
| Marketing landing      | ✓         |           | Brand-true, still \$297 CTA to signup                     |
| Auth email + Google    | ✓         | ✓         | Include forgot password                                   |
| Onboarding tour        | NEW       | NEW       | Required                                                  |
| Health dashboard       | ✓         | preview   | Gauges, not generic cards only                            |
| Take / edit assessment | ✓         |           | Clear progress, autosave feel, gate on \$19               |
| Edit instrument        |           | ✓         | Safer editor, confirm on save                             |
| Personal report + PDF  | ✓         | per user  | Print-quality, logo, health colors                        |
| Resources / Calendly   | ✓         | edit copy | First-class page                                          |
| Feedback + bugs        | ✓         | triage    | Keep both                                                 |
| User directory / roles |           | ✓         |                                                           |
| Platform analytics     |           | ✓         | Unify Analytics + ReportsInsights                         |
| Emails                 | receive   |           | Keep triggers                                             |
| Payments               | not built |           | Design a future checkout screen as optional, not blocking |

## 14. UX quality bar for the redesign

---

- Mobile: assessment must be one-column, large tap targets, sticky submit, section drawer
- Desktop: app-like shell, not a marketing page inside the product
- Replace native `alert()` with toasts / dialogs
- Empty, loading, error, permission-denied, and offline states for every data view
- Accessibility: contrast on navy, visible focus, labeled inputs, don't rely on color alone for health
- Motion: restrained. Yellow/orange energy in CTAs and charts, not constant animation
- Do not use Tailkit leftover "Get Started / Tailkit" patterns
- Do not switch the product into a generic SaaS purple/indigo look

## 15. Pages Claude Design must produce

---

1. Landing
2. Login
3. Signup
4. Forgot password
5. Client onboarding (multi-step)
6. Client dashboard
7. Assessment — section list + question runner + completed/edit + manufacturing skip + completion celebration
8. Post-assessment feedback
9. Full report
10. PDF report template
11. Resources library
12. Feedback modal
13. Bug report modal
14. Admin onboarding
15. Admin home / users
16. Admin user detail + answers inspector
17. Admin analytics (all subviews)
18. Admin content editor
19. Admin monitoring
20. Admin assessment CMS
21. Optional future: checkout / \$297 paywall interstitial (visual only unless wired)

## 16. Appendix A — Full assessment inventory

---

Source: official BHC Section Range Definition. Live option labels and weights are in Firestore and override this table if they differ. Do not drop questions. Section 1 is company intake; scoring categories begin at Section 2.

### Section 1: Company Profile / Business Intake

16 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                               | Input type                            | Low | High |
|----|--------------------------------------------------------|---------------------------------------|-----|------|
| 3  | What is the name of your business?                     | text / intake field (no score weight) |     |      |
| 4  | Street Address                                         | text / intake field (no score weight) |     |      |
| 5  | Street Address Line 2                                  | text / intake field (no score weight) |     |      |
| 6  | City                                                   | text / intake field (no score weight) |     |      |
| 7  | State / Province                                       | text / intake field (no score weight) |     |      |
| 8  | Postal / Zip Code                                      | text / intake field (no score weight) |     |      |
| 9  | Country                                                | text / intake field (no score weight) |     |      |
| 10 | What is the phone number for your business?            | text / intake field (no score weight) |     |      |
| 11 | What is the website address for your business?         | text / intake field (no score weight) |     |      |
| 12 | When did you first start your business?                | text / intake field (no score weight) |     |      |
| 13 | What type of business do you have?                     | text / intake field (no score weight) |     |      |
| 14 | What is the legal status of your business?             | text / intake field (no score weight) |     |      |
| 15 | Is this a new start up or an established business?     | text / intake field (no score weight) |     |      |
| 16 | Who is the primary contact?                            | text / intake field (no score weight) |     |      |
| 17 | What is the best phone number for the primary contact? | text / intake field (no score weight) |     |      |
| 18 | What is the email for the primary contact?             | text / intake field (no score weight) |     |      |

## Section 2: Business Preparation

11 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                        | Input type                                                 | Low   | High |
|----|-------------------------------------------------------------------------------------------------|------------------------------------------------------------|-------|------|
| 19 | Do you currently have a Vision Statement for your business?                                     | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 20 | Do you currently have a Mission Statement for your business?                                    | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 21 | Have you created a Business Model for your business?                                            | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 22 | Have you created a Financial Model for your business?                                           | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 23 | Have you created a Product/Service Pricing Model for your business?                             | multipleChoice (typically Yes/No with weights)             | 1     | 2    |
| 24 | Have you created a Go-To-Market Strategy for your business                                      | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 26 | Have you created a Private Placement memorandum (PPM) for your business                         | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 27 | Have you created a Forward Looking (Save Harbor) Statement for your business                    | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 28 | Is your business currently generating revenue?                                                  | multipleChoice (typically Yes/No with weights)             | 0     | 2    |
| 29 | If not, how long do you predict it will take to get there?                                      | multipleChoice (single select)                             | 0     | 3    |
| 30 | What are some of the key problems you see with your business right now? (Select all that apply) | multipleSelect (select all that apply; weights are summed) | -3.25 | 0    |

## Section 3: Ownership Structure

5 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                       | Input type                                     | Low | High |
|----|------------------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 32 | Are you the sole owner of your business?                                                       | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 33 | Is there someone else you need to get approval from to make business decisions?                | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 34 | Are you or any other owners of your company women, minorities, veterans or a disabled veteran? | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 35 | Is there stock set aside for future investors and/or employees?                                | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 36 | Have you established any strategic alliances or partners?                                      | multipleChoice (typically Yes/No with weights) | 1   | 3    |

## Section 4: Business Funding Position

7 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                                                      | Input type                                                 | Low | High |
|----|-------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 38 | Looking generally at your business, how would you describe its financial position? (select all that apply)                    | multipleSelect (select all that apply; weights are summed) | 1   | 5    |
| 39 | How has the business been financed to date? (select all that apply)                                                           | multipleSelect (select all that apply; weights are summed) | 1   | 11   |
| 40 | How much money have you and other founders invested in the business to date?                                                  | multipleChoice (single select)                             | 1   | 5    |
| 41 | Are you looking to attract additional investment funds?                                                                       | multipleChoice (single select)                             | 0   | 2    |
| 42 | If so, how much are you looking to raise?                                                                                     | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 43 | What do you need the money for? (select all that apply)?                                                                      | multipleChoice (single select)                             | 1   | 17   |
| 44 | How much do you presently have in immediately available funds, either already in the business or to inject into the business? | multipleChoice (single select)                             | 0   | 4    |

## Section 5: Business Milestone Achievements

5 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                              | Input type                                                 | Low | High |
|----|-----------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 46 | What Milestones have been achieved to date? (Check all that apply)    | multipleSelect (select all that apply; weights are summed) | 1   | 27   |
| 47 | What Milestones are currently in the pipeline? (Check all that apply) | multipleSelect (select all that apply; weights are summed) | 0   | 12   |
| 48 | How are you performing toward those milestone achievements?           | multipleChoice (single select)                             | 1   | 4    |
| 49 | Are the people in place to help meet these milestones?                | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 50 | What is your exit strategy?                                           | multipleChoice (single select)                             | 0   | 1    |

## Section 6: Business Structure & Organization

16 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                                      | Input type                                                 | Low | High |
|----|---------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 52 | Is this a home office company or will you need additional office space?                                       | multipleChoice (single select)                             | 1   | 4    |
| 53 | How many people do you employ in total?                                                                       | multipleChoice (single select)                             | 1   | 5    |
| 54 | How many people will you employ at full growth?                                                               | multipleChoice (single select)                             | 0   | 4    |
| 55 | Do you have an HR department internally, or is it outsourced?                                                 | multipleChoice (single select)                             | 0   | 1    |
| —  | Is there a defined culture within your organization?                                                          | multipleChoice (single select)                             | 1   | 2    |
| —  | Do you have a high turnover of employees?                                                                     | multipleChoice (single select)                             | 1   | 2    |
| —  | Do you have issues with team engagement among employees?                                                      | multipleChoice (single select)                             | 1   | 2    |
| —  | Have you developed a policies and procedures manual?                                                          | multipleChoice (single select)                             | 1   | 2    |
| —  | Do you have job descriptions in place for employees?                                                          | multipleChoice (single select)                             | 1   | 2    |
| —  | Do you have an official review/discipline process in place?                                                   | multipleChoice (single select)                             | 1   | 2    |
| —  | Do you have an active employee benefits plan in place?                                                        | multipleChoice (single select)                             | 1   | 2    |
| 56 | Do you have an IT department internally, or is it outsourced?                                                 | multipleChoice (single select)                             | 0   | 1    |
| 57 | Will you be seeking to hire new employees over next 12 months?                                                | multipleChoice (single select)                             | 0   | 2    |
| 58 | Have you used external consultants to date?                                                                   | multipleChoice (single select)                             | 0   | 2    |
| 59 | Would you consider using part-time consultants to fulfill some of the key functions within the company?       | multipleChoice (single select)                             | 0   | 2    |
| 60 | What skill gaps do you currently feel you need to fill in order to grow your business? (Check all that apply) | multipleSelect (select all that apply; weights are summed) | -7  | 1    |

## Section 7: Executive Management Team

9 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                             | Input type                                                 | Low | High |
|----|------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 62 | Do you have Executives other than yourself?                                                          | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 63 | What key executive functions are currently in place? (Check all that apply)                          | multipleSelect (select all that apply; weights are summed) | 0   | 7    |
| 64 | Have any of your Key Executives previously had successful business ventures?                         | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 65 | Do any of the Key Executives have Founder shares in the business?                                    | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 66 | Have any of the Key Executives invested into the business?                                           | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 67 | Are all executive team members direct employees of the business?                                     | multipleChoice (typically Yes/No with weights)             | 1   | 2    |
| 68 | Do you have a Board of Directors?                                                                    | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 69 | Do you have an Advisory Board?                                                                       | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 70 | Do you have external professional advisors, consultants or coaches in any specific area of activity? | multipleChoice (typically Yes/No with weights)             | 0   | 1    |

## Section 8: Products or Services

8 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                              | Input type                     | Low | High |
|----|---------------------------------------------------------------------------------------|--------------------------------|-----|------|
| 72 | What do you sell?                                                                     | multipleChoice (single select) | 1   | 3    |
| 73 | How do you characterize your business?                                                | multipleChoice (single select) | 1   | 4    |
| 74 | If you are a service oriented business, are you the provider/creator of your service? | multipleChoice (single select) | 0   | 3    |
| 75 | If you are a product oriented business, are you the manufacturer of your product?     | multipleChoice (single select) | 0   | 4    |
| 76 | Do you have an existing Minimal Viable Product (MVP) for your business                | multipleChoice (single select) | 0   | 3    |
| 77 | What is your expectation of Net Profit before Taxes?                                  | multipleChoice (single select) | 0   | 4    |
| 78 | Would your products/services be considered "must haves" or "like to haves"            | multipleChoice (single select) | 0   | 3    |
| 79 | Do you have to drive demand or does the market take care of it?                       | multipleChoice (single select) | 0   | 3    |

## Section 9: Intellectual Property

6 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                           | Input type                                     | Low | High |
|----|------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 81 | Do you have any proprietary technology or manufacturing processes?                 | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 82 | Do you have any patents, copyrights or trademarks filed or pending?                | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 83 | Are you satisfied that your IP is being protected at the manufacturing level?      | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 84 | Do you work with an established IP attorney?                                       | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 85 | Do you suffer any issues with regard to IP infringement?                           | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 86 | Do you suffer problems with counterfeit products competing with you in the market? | multipleChoice (typically Yes/No with weights) | -1  | 1    |

## Section 10: Scalability

8 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #  | Question                                                                                  | Input type                                     | Low | High |
|----|-------------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 88 | Where are your products/services currently being sold?                                    | multipleChoice (single select)                 | 0   | 3    |
| 89 | Is your business model one which will enable you to significantly scale up your business? | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 90 | How do you see the future for your business?                                              | multipleChoice (single select)                 | 0   | 3    |
| 91 | How long before you see yourself becoming profitable?                                     | multipleChoice (single select)                 | 0   | 4    |
| 92 | Are you exploiting the company's full potential for "Geographical" scalability?           | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 93 | Would you consider setting up a physical presence in overseas markets?                    | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 94 | Are you exploiting the company's full potential for "Market" scalability?                 | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 95 | Are you exploiting the company's full potential for "Product scalability"?                | multipleChoice (typically Yes/No with weights) | 0   | 2    |

## Section 11: Revenue

7 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                       | Input type                                                 | Low | High |
|-----|------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 97  | Do you currently have more than ONE revenue stream?                                            | multipleChoice (typically Yes/No with weights)             | 1   | 2    |
| 98  | Are you planning to increase the number of revenue streams?                                    | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 99  | Are your sales patterns consistent or cyclical?                                                | multipleChoice (single select)                             | 0   | 2    |
| 100 | Are you happy with the performance of all the revenue streams?                                 | multipleChoice (typically Yes/No with weights)             | 0   | 3    |
| 101 | How realistic is it to develop additional revenue streams? (on a scale of 1 to 5)              | multipleChoice (single select)                             | 0   | 4    |
| 102 | What are the limiting factors for developing additional revenue streams?(Check all that apply) | multipleSelect (select all that apply; weights are summed) | 1   | 6    |
| 103 | End of 11 Sumary                                                                               | Totals                                                     | 2   | 19   |

## Section 12: Sales

14 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                | Input type                                                 | Low | High |
|-----|-------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 104 | Where are your sales made?                                              | multipleChoice (single select)                             | 1   | 2    |
| 105 | Have you developed revenue projections for the next 2-3 years?          | multipleChoice (typically Yes/No with weights)             | 1   | 2    |
| 106 | How frequently do you track your performance against these projections? | multipleChoice (single select)                             | 0   | 4    |
| 107 | Have you developed revenue projections for the next 3-5 years?          | multipleChoice (typically Yes/No with weights)             | 1   | 2    |
| 108 | Do you have an internal sales force?                                    | multipleChoice (typically Yes/No with weights)             | 1   | 2    |
| 109 | How many people in the company are responsible for making sales?        | multipleChoice (single select)                             | 0   | 2    |
| 110 | Are your salespeople full-time or part-time?                            | multipleChoice (single select)                             | 0   | 5    |
| 111 | Do you have an established sales process in place?                      | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 112 | How are your sales personnel compensated? (Check all that apply)        | multipleSelect (select all that apply; weights are summed) | 0   | 4    |
| 113 | Is your sales team meeting defined goals?                               | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 114 | Do you have an in-house sales training program?                         | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 115 | Do your field sales people also manage ongoing customer relationships?  | multipleChoice (typically Yes/No with weights)             | 0   | 2    |
| 116 | How long is the sales cycle?                                            | multipleChoice (single select)                             | 0   | 3    |
| 117 | Do you export/work internationally?                                     | multipleChoice (typically Yes/No with weights)             | 1   | 2    |

## Section 13: Customer Identification

9 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                           | Input type                                     | Low | High |
|-----|----------------------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 119 | What percentage of your total sales is generated by your top 5 customers?                          | multipleChoice (single select)                 | 0   | 3    |
| 120 | How would you describe your target customer list?                                                  | multipleChoice (single select)                 | 0   | 5    |
| 121 | How would you describe your target market?                                                         | multipleChoice (single select)                 | 1   | 4    |
| 122 | Do you have a clear profile of your ideal customer?                                                | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 123 | Are your customers readily accessible geographically?                                              | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 124 | Are your customers readily accessible digitally?                                                   | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 125 | Do you have previous experience successfully selling other products/services to this customer set? | multipleChoice (typically Yes/No with weights) | 1   | 2    |
| 126 | How would you rate your customer relations overall?                                                | multipleChoice (single select)                 | 0   | 4    |
| 127 | Do you get referral business from existing customers?                                              | multipleChoice (typically Yes/No with weights) | 0   | 1    |

## Section 14: Market Dynamics

12 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                                                | Input type                                     | Low | High |
|-----|-------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 129 | How well defined is the size of your market on a scale of 1 to 5?                                                       | multipleChoice (single select)                 | 0   | 3    |
| 130 | Do you consider your company to have an established presence in its markets?                                            | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 131 | How well do you feel you have penetrated those markets?                                                                 | multipleChoice (single select)                 | 0   | 4    |
| 132 | Have you conducted a Strengths, Weakness, Opportunities and Threats (S.W.O.T.) analysis on your business                | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 133 | Have you identified your primary competitive advantage?                                                                 | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 134 | Do you have a plan to overcome your competitive disadvantages?                                                          | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 135 | Do you have serious competition?                                                                                        | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 136 | Are they powerhouse companies with massive resources you cannot match?                                                  | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 137 | How do your competitors see you in your markets?                                                                        | multipleChoice (single select)                 | 0   | 2    |
| 138 | Do you have a handle on market trends effecting your business?                                                          | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 139 | Do these represent opportunities or threats to the business in the future?                                              | multipleChoice (single select)                 | 0   | 3    |
| 140 | Is your market need well-known, or will you be required to educate your market as to the problem the need solved first? | multipleChoice (single select)                 | 1   | 4    |

## Section 15: Marketing

17 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                          | Input type                                                 | Low | High |
|-----|---------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 142 | Does your company have a dominant brand identity?                                                 | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 143 | Does your company have registered domain names to support its market presence?                    | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 144 | Does your company have a professionally designed brand logo?                                      | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 145 | Do your products/services have clear brand identities?                                            | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 146 | How do you perceive your company's image today?                                                   | multipleChoice (single select)                             | 0   | 4    |
| 147 | If rated low, do you know why?                                                                    | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 148 | Have you made efforts to strengthen your image in the past 12 months?                             | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 149 | Do you have a marketing strategy incorporated into a Marketing Plan?                              | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 150 | How often is this marketing strategy revisited and updated?                                       | multipleChoice (single select)                             | 0   | 3    |
| 151 | Do you have an identified marketing budget?                                                       | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 152 | What percentage of total gross revenue is attributed to marketing                                 | multipleChoice (single select)                             | 0   | 5    |
| 153 | Do you have anyone specifically in charge of marketing in-house or outside?                       | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 154 | Is there a corporate focus on the marketing of the company?                                       | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 155 | What are the different channels you use to promote the business currently? (Check all that apply) | multipleSelect (select all that apply; weights are summed) | 1   | 8    |
| 156 | Are you active on social media?                                                                   | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 157 | Do you have in-house expert on social media or is it outsourced?                                  | multipleChoice (single select)                             | 0   | 2    |
| 158 | Are your customers on social media?                                                               | multipleChoice (single select)                             | 0   | 2    |

## Section 16: Financial Management

19 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                          | Input type                                     | Low | High |
|-----|-----------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 160 | Have you been actively maintaining ongoing record keeping for financial purposes? | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 161 | Do you have internal bookkeeping capabilities?                                    | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 162 | Do you have internal accounting staff or is it out-sourced?                       | multipleChoice (single select)                 | 1   | 2    |
| 163 | Do you employ an external CPA or accountant to prepare tax returns?               | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 164 | Do you feel you have liquidity issues or cash flow problems?                      | multipleChoice (typically Yes/No with weights) | -1  | 1    |
| 165 | Do you have the bank facilities and relationships in place to support cash flows? | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 166 | Does the company carry any debt? (excluding equity investors)                     | multipleChoice (typically Yes/No with weights) | -1  | 1    |
| 167 | If so, how much?                                                                  | multipleChoice (single select)                 | 1   | 5    |
| 168 | Are you happy with your current banking relationship?                             | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 169 | Is your company profitable?                                                       | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 170 | Have you reached breakeven?                                                       | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 171 | Are you able to determine if all your product or service lines make money?        | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 172 | How closely do you monitor cash flows?                                            | multipleChoice (single select)                 | 0   | 3    |
| 173 | Do you have an internal financial management system that you use?                 | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 174 | Does your company produce annual budgets?                                         | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 175 | Do you produce regular cash flow forecasts?                                       | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 176 | If so, how accurate have they proven to be to date?                               | multipleChoice (single select)                 | 0   | 3    |
| 177 | Do you compare your actual performance against your forecasts?                    | multipleChoice (typically Yes/No with weights) | 0   | 2    |

| #   | Question                             | Input type                                     | Low | High |
|-----|--------------------------------------|------------------------------------------------|-----|------|
| 178 | Are all your taxes filed up to date? | multipleChoice (typically Yes/No with weights) | 0   | 1    |

## Section 17: Pricing Models

5 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                      | Input type                                                 | Low | High |
|-----|-----------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 180 | Does the company have robust pricing models for all its products?                             | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 181 | Do you have a clear idea of your unit costs of production?                                    | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 182 | Are you selling to wholesalers/ retailers/ public directly? (Check all that apply)            | multipleSelect (select all that apply; weights are summed) | 0   | 3    |
| 183 | Is your pricing model dictated by competition or by profit goals?                             | multipleChoice (single select)                             | 0   | 2    |
| 184 | If product based, do you offer value-added “services” in addition to the company’s offerings? | multipleChoice (typically Yes/No with weights)             | 0   | 1    |

## Section 18: Cost Controls

5 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                           | Input type                                     | Low | High |
|-----|------------------------------------------------------------------------------------|------------------------------------------------|-----|------|
| 186 | Do you consider you have a cost problem generally?                                 | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 187 | If so, do you know where problem lies?                                             | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 188 | Have you tried or been able to do anything positive to turn these problems around? | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 189 | Do you have any systems in place to control costs?                                 | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 190 | Is there a cost control culture within your company?                               | multipleChoice (typically Yes/No with weights) | 0   | 1    |

## Section 19: Production

16 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                              | Input type                                     | Low | High |
|-----|-----------------------------------------------------------------------|------------------------------------------------|-----|------|
| 192 | Are you a Manufacturing Company?                                      | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 193 | Where are your products manufactured?                                 | multipleChoice (single select)                 | 0   | 3    |
| 194 | Are you satisfied with your manufacturing operations?                 | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 195 | Do you suffer from quality control issues?                            | multipleChoice (typically Yes/No with weights) | -1  | 1    |
| 196 | If manufacturing overseas, do you have a local rep looking after you? | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 197 | Are you always able to fulfill orders on time?                        | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 198 | Are you satisfied with your costs of production?                      | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 199 | Do you have problems sourcing supplies and raw materials?             | multipleChoice (typically Yes/No with weights) | -1  | 1    |
| 200 | How much control do you have over the manufacturing process?          | multipleChoice (single select)                 | 0   | 5    |
| 201 | Do you receive satisfactory credit terms from your suppliers?         | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 202 | Are you normally able to pay creditors on time?                       | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 203 | Are you governed by Health & Safety or other regulatory matters?      | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 204 | Are you in compliance with all appropriate regulations and laws?      | multipleChoice (typically Yes/No with weights) | 0   | 1    |
| 205 | Are your company's internal production processes robust?              | multipleChoice (typically Yes/No with weights) | 0   | 2    |
| 206 | How engaged is your company regarding new product development?        | multipleChoice (single select)                 | 0   | 3    |
| 207 | Is anyone responsible for new product development?                    | multipleChoice (typically Yes/No with weights) | 0   | 1    |

## Section 20: Personal Assessment

13 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                                   | Input type                                                 | Low | High |
|-----|------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-----|------|
| 209 | Are you permanently stressed out due to work issues?                                                       | multipleChoice (typically Yes/No with weights)             | -1  | 1    |
| 210 | What stressors seem to keep you up at night?<br>(Check all that apply)                                     | multipleSelect (select all that apply; weights are summed) | -5  | -1   |
| 211 | Do you feel your life/work balance is skewed in the wrong direction?                                       | multipleChoice (typically Yes/No with weights)             | -1  | 1    |
| 212 | Are you ever able to take time out to recharge?                                                            | multipleChoice (typically Yes/No with weights)             | -1  | 1    |
| 213 | Do you have a team in place to fill in gaps when you are away?                                             | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 214 | Do you feel the company can operate effectively in your absence?                                           | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 215 | Do you have "Key Person" Insurance or some protective measure in place if you should become incapacitated? | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 216 | Are you able to pay yourself what you think you're worth?                                                  | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 217 | On an hourly basis, are you the best or worst paid person in your company?                                 | multipleChoice (single select)                             | 1   | 3    |
| 218 | Do you have a "Legacy" plan in place for your business?                                                    | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 219 | Do you have a successor in mind?                                                                           | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 220 | If so, is your successor being groomed to take over?                                                       | multipleChoice (typically Yes/No with weights)             | 0   | 1    |
| 221 | Looking at your overall feelings about becoming a business owner, which answer best sums up your feelings? | multipleChoice (single select)                             | 0   | 3    |

## Section 21: General

12 items. Exact option labels and per-option weights live in Firestore `BHC_Assessment` and must be preserved.

| #   | Question                                                                                                                  | Input type                                                 | Low  | High |
|-----|---------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|------|------|
| 223 | Do you see any of the following looming external threats happening that could upset your business? (Check all that apply) | multipleSelect (select all that apply; weights are summed) | -5   | 0    |
| 224 | Are there any internal weakness or threats that could hinder your growth as a company? (Check all that apply)             | multipleSelect (select all that apply; weights are summed) | -5   | 0    |
| 225 | Do you see any changes externally that could create great opportunities for growth?                                       | multipleChoice (typically Yes/No with weights)             | 0    | 1    |
| 226 | Do you feel you already have the internal resources to exploit those opportunities?                                       | multipleChoice (typically Yes/No with weights)             | 0    | 1    |
| 227 | How Close is the Company to reaching it's full potential as it is right now?                                              | multipleChoice (single select)                             | 0    | 10   |
| 228 | Would it require a significant capital injection to take it to another level?                                             | multipleChoice (typically Yes/No with weights)             | -1   | 1    |
| 229 | Would it require an enhanced team to take it there?                                                                       | multipleChoice (typically Yes/No with weights)             | 0    | 1    |
| —   | Foundational Structure (Sections 2, 3, 5, 6 & 7)                                                                          | 1                                                          | 7.75 | 135  |
| —   | Financial Position (Sections 4, 8, 11, 12, 16, 17 & 18)                                                                   | 2                                                          | 13   | 169  |
| —   | Sales/Marketing (Sections 10, 12, 13, 14 & 15)                                                                            | 3                                                          | 12   | 138  |
| —   | Product/Service (Sections 8, 9 & 19)                                                                                      | 4                                                          | -1   | 64   |
| —   | General (Sections 20 & 21)                                                                                                | 5                                                          | -18  | 29   |

## 17. Appendix B — Implementation constraints checklist

---

- Keep Firebase project and web config.
- Keep collection names: users, usernames, BHC\_Assessment, sectionResults, assessmentFeedback, feedback, bugReports, reportContent, mail.
- Keep question `id`, `type`, `options[].label`, `options[].weight` unless an admin edits them in CMS.
- Keep category keys exactly: foundationalStructure, financialPosition, salesMarketing, productService, general.
- Keep healthLevel values: low | medium | high.
- Keep Danna admin/client toggle.
- Keep Google + email auth.
- New fields are additive.
- Visual language: navy, royal blue, gold, orange, magenta chart gradient.

End of brief. Rebuild every view. Preserve the diagnostic engine.
